# GoosePilot

Tired of Excel?
Streamlining your job search with GoosePilot

The Problem

- People spend considerable time researching and applying for jobs
- Most either do not track or track with a dead-end spreadsheet
- People feel anxious and frustrated when company do not update app process
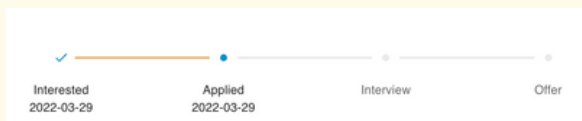

Our Solution

- A platform that assists job seekers in making their application tracking effortless

- A chrome extension that auto-fills job information, supporting more than 10 major job posting websites (i.e. WaterlooWorks)

- A community for users to share their application timelines, and take a sneak peek into others' job application process.

Architecture
